

# Sanamed medical journal of doctors Novi Pazar- Call For Reviewers

Peer-reviewed medical journal Sanamed, seeks applicants interested in serving as reviewers. If you are interested, please volunteer your expertise. All disciplines are needed.

The role of reviewers is to evaluate the quality and relevance of submitted papers.

Members of the Peer Review Board peer review submitted articles in their areas of expertise, suggest topics to be covered and provide ongoing advice to the editors.

When you are selected to be a reviewer for a manuscript, you will have a 5 days to accept or decline. If you accept the request, you will have approximately 2 weeks to complete the review. Final decision about the acceptance and refusal of the article for the publication will be taken by editors.

Reviewers may be requested to review manuscripts up to four times a year. Reviewers who consistently exhibit excellent reviews and respond promptly to the editorial requests are considered for invitation to the Editorial Board.

Medical journal Sanamed (MJS) uses a double-blind review process in which authors do not know the identity of their reviewers, nor do the reviewers know the identities of the authors. If submitted manuscript is judged as inappropriate for the journal's readership, there will be no external reviewing. If review is required, authors can expect rejection or acceptance in approximately 4 to 6 weeks, depending on the turnaround time for reviews. After the external review is complete, the Editor's decision, with comments from the reviewers, is emailed to the corresponding author.
