

A word from the guest editor */ Reč gostujućeg urednika*

Dear Colleagues,

This is a great honor for me to be one of the guest editors of such an authoritative medical journal as "Sanamed". I think this journal has a very high scientific level and I congratulate the publishers, and wish them many more years of successful development. Given the high scientific quality of the journal and its authors, I always recommend with confidence my colleagues to publish their scientific contributions mainly in "Sanamed", and more likely to include it in their references. In support of these words in this issue we present several scientific articles of Bulgarian authors, and we hope that this trend will become permanent. The idea of The Editorial Board in each issue to have different guest editors is very useful and will help a lot for the promotion of the medical journal to a wider circle of readers. In this sense, I would like to thank especially Dr. Dzemail Detanac for this great initiative, and to wish him very good health and success.

* * *

Poštovane kolege,

Izuzetna čast je to što mi je ukazana prilika da budem jedan od gostujućih urednika u autoritativnom medicinskom časopisu kao što je „Sanamed“. Mišljenja sam da je ovo časopis sa vrlo visokim naučnim nivoom, i ovom prilikom čestitam izdavačima, i želim im još mnogo godina uspešnog razvoja. S obzirom na visok naučni kvalitet časopisa i njego-

vih autora, uvek s poverenjem preporučujem kolegama da publikuju svoja naučna dostignuća uglavnom un „Sanamed-u“, kao i da ga uključe u svoje reference. U ovom broju predstavljamo nekoliko naučnih radova bugarskih autora, sa željom da ovaj trend postane trajan. Ideja Uredništva da u svakom broju imaju različite gostujuće urednike je vrlo korisna i pomoći će promociji ovog medicinskog časopisa širem krugu čitatelja. U tom smislu, želeo bih se zahvaliti, posebno dr Džemailu Detancu, za ovu veliku inicijativu, kao i da mu poželim dobro zdravlje i uspeh.
